

NC356A automatic creasing machine

Extended paper discharge table

Guaranteed no deformation after 1 million times of work

Upper suction air automatic paper feeding paper thickness 90mm

Machine parameters

Machine model	NC356A automaticcreasing machine		Number of indentations per sheet	0-36 times
Working Mode	Indentation dashed line		Working procedure	30 sets
Indentation velocity	3000 sheets/H (A4 press 1 stripe)		Counting function	Forward and reverse counting function
Minimum indentation spacing	1mm		Variable indentation	OK
Paper thickness	Indentation	102g-350g	Mobile working base cabinet	Optional
	Dotted line	102g-300g		
Display mode	7-inch touch screen		Packaging method	Carton
Automatic feed length	150-660mm		Power supply	220V/50Hz or 110V/60Hz
Paper width	210-330mm		Package Weight	75KG
Indentation accuracy	±0.2mm		Machine unfolding dimensions	1640X560X430mm
Product Power	400W		Packaging Size	70X66X53cm
